→ Function to print decimal no in binary

```
VOID PRINTBINARY (INT NUM)
```

```
{
```

```
    FOR (INT i=10; i ≥ 0; i--)
```

```
    {
```

```
        cout << ((NUM >> i) & 1);
```

```
    }
```

```
    cout << "\n";
```

```
}
```
